Legal Notices.

DEED OF ASSIGNMENT,

BARING DATE THE EIGHTEENTH day of October, 1867, made between Charles Kent and William Evans, of Fort street, Victoria, Hardware Merchants, of the one part, and Thomas Lett Stahl-Schmidt, and George James Findlay, both of Victoria, Merchants, the Trustees of the Estate of the late Joseph Kent, and William Evans, Executors of the Estate of the deceased, of the other part, being a Deed of Assignment whereby the said Charles Kent and William Evans covenanted, that they would convey to the Trustees of the Estate of Charles Kent and William Evans all their estate and effects, held by them, except the House and Land, which they and Charles Kent, and George James Findlay, had absolutely unto the said Thomas Lett Stahl-Schmidt and George James Findlay, to be apportioned and administered for the benefit of the Creditors of the said Charles Kent and William Evans, in like manner as it Charles Kent and William Evans, had been at the date thereof duly adjudged Bankrupts.

RICHARD WOODS,
Acting Registrar.

In the Supreme Court of Civil Justice of Vancouver Island, B.C.

IN THE MATTER OF THE ASSIGNMENT of Joseph H. Hazelwood King, bearing date the 25th day of November, 1867, made and executed by and between the said Joseph Hazelwood King, of Victoria, V.I., Licensed Victualler, of the one part, and Auguste Pujol and Eugene Thomas, both of Victoria, attorneys, for themselves and the rest of the creditors of the said Joseph Hazelwood King, of the other part, being a Deed of Assignment whereby the said Joseph Hazelwood King conveys all his estate and effects absolutely to the said Auguste Pujol and Eugene Thomas, to be applied and administered for the benefit of the creditors of the said Joseph Hazelwood King, in such manner as if the said Joseph Hazelwood King, had been at the date of the said Deed duly adjudged Bankrupt, was on the 27th day of November, A.D. 1867, and at the hour of 3 o'clock P.M., on said day brought into my office for registration and was duly registered pursuant to the provisions of the Bankruptcy Act, 1862.

RICHARD WOODS,
Acting Registrar.

GEORGE PARKER, Solicitor, V.I., B.C.

In the Supreme Court of Civil Justice of British Columbia,

IN CHANCERY.

IN THE MATTER OF THE COMPANIES ACT, 1862. The Companies' Ordinance, 1869, and the Artisan Gold Mining Company, Limited.—By direction of the Honorable Matthew Battie Begbie, Judge of our Supreme Court of Civil Justice of British Columbia, notice is hereby given that the said Joseph Hazelwood King, in his capacity as one of the contributors of the said Company, Wednesday, the 2nd day of December, 1867, at 11 o'clock A.M., at his Chambers, New Westminster, to make a full account of the said Company, and that the official liquidator of the said Company proposes that such Call shall be for \$0 per share, all persons interested are entitled to such call, and that day, hour and place, to offer objections to such call.

QUAS. E. POOLEY,
Acting Chief Clerk.

Dated this 26th day of November, 1867.

NOTICE.

Medical.

CURES AND COMFORT FOR THE BED-RIDDEN.
—BY

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving and curing old sores, wounds, bad legs, ulcers and granulations of the skin; when rubbed on the surface it purifies and purges the body, and seems to cure internal & exterior rheumatic affections over the internal structures. It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Goat and Rheumatism.

Those suffering from the aching pains of rheumatism and Goat disease will prove invalids again. After treatment with warm water the healing action of this Ointment is most remarkable, it seems to cure to less than half a century, ease pain, reduce the swelling, restore natural dilation, ease pain, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe-

cialists. All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ring-worm, Scurvy, Scrofula, or King's Evil, and the most inveterate skin diseases to which the human race is subject. They can be treated with a salve or more speedily removed by this Holloway Ointment, assisted by its celebrated Pills, which act powerfully on the circulation, and purify the blood, so that the disease is completely eradicated from the system, and a lasting cure obtained.

Dropsical Swellings.

wherever found, and healthy complain which frequently disappears on by slight touchiness and irritability, of which little or no notice is taken until the beginning to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Ointment, and the pills, and you will be rid of the disease in a short time, and a cure will be effected with entire safety.

THE BRITISH COLONIST.

Wednesday Morning, Dec. 4, 1867.

TO ADVERTISERS.

Transient Advertisements must be paid for in advance or insure insertion.

TO AGENTS.

Settlements of accounts will be required monthly, or his receipt of which will be discontinued. The daily and weekly issue will be furnished at the lowest cash rates and no exception will in future be made to this rule.

NANAIMO AGENCY.

Mr H. W. Alexander is no longer authorized as agent of this paper at Nanaimo. Our business at that place is now to be conducted by Mr. D. L. LEY, who is alone empowered to receipt for subscriptions, &c.

The East Coast Steamer.

We have admitted, during the past few days, several able letters in favor of a continuance of the Government mail steamer on the East Coast of this Island. The writers assume that should the steamer be withdrawn from the route, the settlements which have just begun to give a good report of themselves will languish if not die out entirely. Now, while we admit that, should no steamer visit the settlements the result might prove disastrous, we are by no means persuaded that it is essential to the salvation of those settlements that that steamer should be one on which there is a yearly loss of several thousand dollars, any more than we are persuaded that the persons who have signed petitions in favor of the continuance of the Assay Office will contribute to the support of that institution by sending their gold dust to it for assay. As we understand the matter, the question is not, as our correspondents appear to think, Shall the steamer be discontinued? But how, in the dreadfully straitened circumstances of the Colony, can the service be most economically performed? If the Sir James Douglas sinks for the Colony \$3000 a-year, and the Colony can procure a proper boat, owned by responsible parties, who will enter into bonds to carry the mails for an annual subsidy of \$1000, and passengers and freight at the same rates now charged by the Sir James Douglas, surely it is the duty of the Government to save \$2000 by granting the subsidy to the latter. Such is the position assumed by those who are appalled at the enormous sum now due the Coal Company for fuel supplied the Douglas and the large amount due her hands for wages. There is no doubt that a steamer on the East Coast is desirable and necessary; and if, as is asserted, the Sir James Douglas is earning money for the Government in the trade, and that the gross receipts are paid into the Treasury and used for the general purposes of the Government without reference to the indebtedness which is daily accumulating against the steamer, then Government is not acting in good faith with the creditors of the steamer by not liquidating their claims, and carrying the net profits only to the general uses of the Colony. However, we have reason to believe that the Sir James Douglas is losing money. If we have been misinformed we shall gladly make public the fact; but, so long as we entertain that belief, we shall continue our efforts to have the mail service entrusted to private parties, provided that it can be performed at a less cost than it now requires to run the Douglas.

The Rodman Gun and its Failure.

The efforts of some of the American papers to explain away the signal defeat of the 15-inch Rodman gun at Shoeburyness, are more zealous than successful. It is now officially stated that the powder used was American service powder, which, though weaker than English, is stronger than the French. The service charge is 35 lbs., and 60 lbs. even are considered so dangerous that but twenty rounds are allowed to be fired from a gun thus overloaded. There is no doubt that the trial at Shoeburyness was a fair trial. The British Government had no inducement to make it an unfair one; they had every inducement to make it a fair one, for it is above all things important to them that they should know exactly what this 15-inch monster could do. They may not have believed in the gun, but the completeness of its failure to penetrate or to rack a target which had been repeatedly pierced by much lighter English guns, was a surprise. The moderate power of the big guns was much better known in America than in England. They were at one time deemed formidable by some persons in England who are usually well-informed on such matters. It will not soon be forgotten how the Times hailed the arrival of the Miantonomah last year, when that terrible ironclad was towed across the unripped surface of a summer Atlantic sea. The naval supremacy of England was gone—had passed to the Americans, who had outstripped the world in ships and in guns. It was an act of mere greed, will and the easy temper of conscious strength that the Miantonomah did

not seize Portsmouth and Spithead, and send to the bottom the 15 or 20 iron-clads that lay helplessly in those harbors. All that is changed. The true character of the Miantonomah's voyage came out. Now the guns have been tried, and found ineffective against even the weaker ironclads of the English fleet, and England, poorly off as she is, really both in ships and in guns, may go to war with America to-morrow, if she chooses, without any apprehension of the navy which a year ago she might have regarded as invincible.

The Tariff.

EDITOR COLONIST.—I was much surprised to read in your paper of yesterday a paragraph intimating that rumors were afloat that the Government intended raising the Tariff at the next meeting of the Council. I trust that this is mere rumor, for anything more unwise, injudicious, or unjust, than the raising of the tariff at the present juncture of affairs, could not possibly be conceived. The tariff is not a thing to be meddled with at each meeting of the Council, unless there be something egregiously wrong that requires immediate alteration. How are merchants and traders generally to regulate their business if they are to be subject to sudden and unforeseen changes in the tariff? Goods (especially those from England) have to be ordered 9, 10, or even 12 months before they are received, and orders that would be sent under one condition of the tariff would not be sent under another. Is it right, then, that traders should be heavy losers from the inability or indifference of the Government to understand these things? I do not say that the present tariff is perfect, or that it could not be amended in some respects to advantage, but I contend that it is better for the trading community generally that little incongruities in the present tariff should be borne rather than that sweeping alterations should be suddenly made. The tariff is already as high as can be well borne, and if the Government do not wish to diminish the already limited trade of the Colony they will endeavor rather to lessen than to increase the burdens of an already over-taxed people, and seek to adjust the expenditure of the Colony to its moderate but very respectable revenue, instead of endeavoring to wring from a very limited population an amount out of all comparison with what should be required for governing them—governing them well and providing all that is necessary for the maintenance and purposes of the Colony generally.

A MERCHANT.

MISERY IN SAN FRANCISCO.—Very few of the citizens of San Francisco have any idea of the misery and poverty that exists in the most liberal and generous city in the world.

There are regions where the squalid poverty of the New York Five Points finds its peer,

and there are regions which are far worse

than anything ever seen in New York. In

saying this, we do not refer to the regions inhabited by the degraded and semi-barbarous and wholly filthy Chinese, but to localities

where white people seek to eke out a miserable existence. There are hundreds of persons here, with families depending upon them for support, who cannot earn more than a dollar and seventy-five cents a day, and with this magnificent income they must feed a half-dozen mouths and clothe as many bodies. With meat at twenty cents a pound and vegetables in proportion, they cannot afford to pay a great deal for house rent, and everyone knows that householders do not let even the nastiest, narrowest, darkest room imaginable for less than four or six dollars a month and where two or three rooms are required, ten or fifteen dollars are demanded and not a cent less will be taken. If some of our millionaires were philanthropists and had a soul above gain, they would make immortal names for themselves, and be beloved by hundreds of grateful hearts, by erecting a number of tenement houses, with suitable apartments for small families and renting them at small rates. But we fear we have none of those who are made out of the right sort of metal. Here the old motto "Every one for himself, and the devil take the hindmost," has obtained a foothold which we fear cannot be eradicated. Then again there is another class of unfortunate—men who arrive from the East with but a few dollars in their pockets. They reach our Golden State with buoyant hearts and high hopes of "big things," but before they know it all their scanty means are gone and they find themselves without a cent or a friend, and what is far worse without work. Having remained here until they are "dead broke," they find it impossible to get into the country to look for work. Hotels and lodging houses long ago adopted the rule of "pay in advance," and when the last dollar is expended the unfortunate fellows have found the bedrock and are in a condition bordering on frenzy. The lunch table to them is a blessing and they have to live on what they can pick up there and sleep God knows where. Many of them go into the suburbs and crawl beneath the chaparral; others again crawl into houses in course of erection; others crawl amongst the bales of hay and make a bed there. Only a few nights ago a policeman while searching for some escaped prisoner from the Industrial School, discovered twenty seven men sleeping under a pile of hay on one of the wharves. The vigilant officer, being in the receipt of one hundred and twenty-five dollars per month, could not realize that these twenty-seven men were too poor to pay for a bed, so routed them out and drove them away. One of these poor men as he was moving away, said more in sorrow than in anger, "Muy you never be so poor as to have no place to lay your head." The officer thought this was insolence and threatened to arrest the poor creature for vagrancy. He forgot, if he ever knew, that poverty was a misfortune, not a crime. A gentleman upon whom we can rely, informs us that he has many times observed poor fellows who came to him for work and failed to obtain it, go out with great tears courting down their cheeks, and when they supposed they were unseen, pick up a handful of wheat and devour it as some sweet morsel.—San Francisco Call.

FRED PAYNE has removed his Cheap Shaving Shop to the opposite side of Johnson street, just above the Miner's Saloon. *

By Electric Telegraph

SPECIAL TO THE DAILY BRITISH COLONIST

LAST NIGHT'S DESPATCHES

West Indies.

HAVANA, Dec. 1.—The Austrian frigate Novara has arrived with the remains of Maximilian. The people assembled en masse along the road but no demonstration was permitted.

Letters from St. Thomas, of date Nov. 29th, say another earthquake, accompanied with violent eruptions, had occurred. The sea rose 50 feet, doing much damage to shipping and causing loss of life.

Eastern States.

CHICAGO, Dec. 1.—Hancock's order on taking command at New Orleans declares that the military power should cease and leave the civil administration to resume its natural functions.

Europe.

PARIS, Dec. 30.—M. Moustier, Minister of Foreign Affairs, in addressing the Senate yesterday, said the stay of the French troops in Roman territory will be brief. The question between Italy and the Pope is one of distrust, and the object of the general Conference proposed by the Emperor was to remove this distrust.

DELAYED DESPATCHES.

Eastern States.

A man named Spencer, and his wife, residing at Paulsboro, New Jersey, who appeared to be of the highest respectability and are said to be worth \$200,000, were arrested on Friday, on the affidavit of Col. Wood, Chief of the Detective force, charged with being the heads of a gang of counterfeiters who have issued spurious seven-thirties. Mrs. Spencer paid \$40,000 cash down, as a bail for herself and husband. Several other parties, reported to be wealthy, are suspected as being connected with the affair. The establishment at Paulsboro has been in operation since 1865, and it is estimated that the parties have netted millions of dollars. The spurious plates were made from a lead impression of the genuine plates secured by the counterfeiters at Washington. All the parties engaged have become wealthy. They reside in different parts of the country. Government officers have been dispatched to arrest them. Spencer owned a magnificient house in Philadelphia.

WILMINGTON, (Del.) Nov. 23.—This afternoon, ten men—six colored and four white—were lashed at New Castle. A large crowd witnessed the exhibition. Five of the men were pilloried.

It is understood from the heads of the different departments that estimates for the coming year are much larger than for last year.

Mexico.

NEW YORK, Nov. 21.—A Herald's Havana special says Tegatoff has been tendered an escort of troops to convey Maximilian's body to Vera Cruz at the Government's expense. All public demonstrations within Mexican jurisdiction are forbidden.

The Mexican Congress convened on November 2d.

Juarez is preparing the defence of the use made of his discretionary powers.

It is stated that Juarez has asked the forces under Escobedo's command to come to the Capital. It is surmised that this demand is made on account of the large force, said to be about 14,000 men with 500 pieces of artillery, under Diaz's command.

A Cuban, for some time a resident of Vera Cruz, says he foresees revolution in Mexico, probably about next January.

Gen. Mariano, who was assassinated by Col. Cormane, is dead.

California.

SAN FRANCISCO, Nov. 26.—In the suit of Alvin Haywar vs. the Times' publishing company, to recover on certain promissory notes, judgment has been entered in favor of plaintiff for \$29,128, interest and costs.

The steamer Golden city arrived from Panama yesterday morning. By her we learn that the ship Asia was wrecked on Paracel Island, off Cape Horn, on Aug. 21st. The officers and crew remained on the desert island for 31 days, suffering every hardship, and were in a starving condition. They were finally rescued by the bark Professor Airy.

Last evening Edwin Luinn fell under a truck that he was driving, and the wheels passed over his feet, crushing his feet in a horrible manner.

The Metropolitan theatre was opened last night by Chas. Wheatleigh in "Under the Gaslights." The house was crowded and Wheatleigh, was welcomed with thousands of applause, concluding with three cheers. "Under the gaslights" will prove a success.

SAN FRANCISCO, Nov. 25.—The largest pumps ever manufactured in the United States have just been completed for the San Francisco Dry Dock Company, at the Vulcan Iron Works in this city. They are to be set in the mammoth wells at the side of the Dock, to pump the water out of it after the admission of a vessel.

A young lady has commenced suit against a gentleman of wealth and standing in this city, to recover \$100,000 damages for alleged breach of promise to marry. The names of the parties are suppressed at present.

Funeral of Sir Frederick Bruce.

By Overland Mail we have received the following account of the funeral obsequies over the remains of Sir Frederick Bruce, late British Minister at Washington:

The remains of Sir Frederick Bruce reached Dufferin on Monday, the 17th October; at noon, by the second train from the west, which brought at the same time the Hon. Thomas Bruce and Dean Stanley, brother and brother-in-law of the deceased diplomatist.

The remains of Sir Frederick Bruce were conveyed to Broomhall, the seat of the Earl of Elgin, nephew of the deceased, where they remained till removed on Tuesday, the 8th, to be interred in the family vault.

The preparations at the vault in Dufferin Abbey for the reception of the body of the deceased were all finished early on Tuesday. Candles were burning mostly all the day in the vault.

The place prepared in the vault for the reception of the body was exactly above the place where the remains of Thomas, seventh Earl of Elgin, lie. The funeral took place on Tuesday afternoon. Dean Stanley conducted the Church of England service at Broomhall, and Rev Mr French, Dufferin, officiated as the Church of Scotland minister.

Rev Dr Johnstone, Limekilns, also officiated, and read a portion of Scripture.

After this service the funeral procession formed and started for the Abbey. Long before the arrival of the procession, or even before there was any sight of it, a great many people turned out to witness the spectacle. Outside there were a great many people collected, and in the Abbey a considerable number of ladies and gentlemen had assembled. When the hearse containing the coffin entered the churburyard the coffin was taken out and carried shoulder high by eight men. Dean Stanley led the way to the vault, reading from the service-book. When the procession reached the top of the entrance to the vault the Dean proceeded with the service, after which he offered prayer, and then the coffin was lowered into the vault. The Abbey bells tolled from a little after one o'clock till after three, when the funeral was over.

Among those present at the funeral were—the Hon. Thomas Bruce, Dean Stanley, the Earl of Elgin, Mr Smyth, Methven Castle; Mr Grant, Kilgaston; Major Cumming-Bruce, Col. Oswald, Dunquier; Mr William Henderson, Fordin; Sir P. A. Hallock, Pittifane; Mr James A. Hunt, Pittencroft; Mr Thomas Spowart, Br. onhead; Lord Provost Whitelaw, ex Lord Provost Robertson, and others.

QUININE.—It is a good thing, says an English paper, that India seems likely to be able to supply the whole world with quinine, for not only was the American supply uncertain, but it was actually threatened with extinction, owing to the reckless way in which the Indians killed the trees in the process of stripping, planting, of course, no new ones.

Mr M'Fer, who has been ably seconding Mr Clement R. Markman's efforts at chinabona planting, finds that by removing only one long strip of bark, and immediately covering the strip with moss, the bark is renewed, provided the cambium is not injured.

The new bark, moreover, is thicker and richer in alkaloids than the original one.

UTILIZING NETTLES.—By a late patent, a species of nettle which grows luxuriantly and spontaneously throughout the Mississippi valley, is employed in the manufacture of cord, rope, cloth, bagging and paper. The stalks, which grow from five to eight feet high, are gathered in the winter, and are ready for the brake without any rotting process. The fibre is said to be exceedingly fine, strong, and susceptible of a high finish by dressing.

ALLEGED ROBBERY.—It is charged that property belonging to the estate of the late Major Humphreys is missing since his death. The property is said to consist of diamonds and coin to the value of several thousand dollars, which were known to be in his possession the day before his demise. Strict search was made by the Official Administrator and the Police yesterday.

THE "GAZELLE" SMUGGLING CASE.—The suit brought by the Customs' authorities against the owner of the schooner Gazelle came on for trial yesterday before the Chief Justice. The charge is that packages of spirits were smuggled from the Island to the Mainland on board the Gazelle, and upon this charge the schooner was seized. The case was not concluded when the Court rose.

RUMORED CHANGES.—Rumors of intended official changes are again afloat. The Superintendent of Police and the Clerk of the Court are said to have both received notices of an intention of the Government to dispense with their services. It is also reported that Judge Begbie has been raised to the position of Chief Justice.

STICKEN Row.—Three native damsels appeared before His Worship Judge Pemberton yesterday, to answer to several charges of misconduct. Betty, for being drunk, was fined \$1; Annie, for biting Chle-Ahe's finger was fined \$5; and Chle-Ahe, for breaking Anna's window, was fined \$10.

THE MARSHAL IN ADMIRALTY yesterday sold the schooner Alpha for \$1225 cash—a very fair price.

THE SPLENDID RESIDENCE formerly occupied by the Rev. Mr Cridge, and owned by David Leneveu, Esq., was totally consumed by fire between 12 and 1 o'clock this morning. The house had been rented to the Hon. Peter O'Reilly, and was in course of preparation for the reception of that gentleman's family. We understand the house cost \$7,000.

COUNTY COURT.—We understand that the machinery of the County Court will be set in motion in a few days. Two months and a half having elapsed since the County Court Act came into force, we should say it is about time.

FEARFUL MORTALITY FROM WAR.—The distinguished China traveler and savant, Dr. Macgowan, estimates the loss of life by the Taiping war at about 25,000,000 souls; but intelligent Chinese say that full 100,000,000 were killed or perished from starvation.

THE THEATRE.—The theatre was filled last evening by an appreciative audience, and the entertainment must have been peculiarly gratifying to the friends of the Royal Hospital. We shall have a word to say as to the performance to-morrow.

THE CIRCUS.—Don't forget the performance this afternoon and evening, which will be the last. New seats will be introduced, and the talented performers deserve a bumping house.

THE RACES.—The races over Beacon Hill Course will come off this afternoon. The entries appear this morning, and promises a splendid day's sport. We hope there will be a large attendance at the track.

THE CALIFORNIA.—After all said and done to the contrary, it appears that this steamship will leave San Francisco to-day for Victoria direct.

THE MERCARA.—This fine bark will commence discharging at Janion, Green & Rhodes' wharf to-day. The cargo is in excellent order.

MAN DROWNED.—A report reached town last night, at 11 o'clock, that a sailor belonging to H. M. S. Zealous had fallen from Rock Bay Bridge and was drowned.

DRUNK.—Jim, a Nanaimo Indian, for an assault whilst drunk, was fined \$1 at the police court yesterday.

A MYSTERIOUS SAMSON IN PARIS.

"ECHOES FROM THE CONTINENT," in the London Herald, tells this story:

Verily, we live in mysterious times. I told you some time ago that there was at Paris, in the Rue Le Peletier, an arena where the most sturdy athletes of France wrestle three times a week. A few days ago a manager received a letter signed "An Amateur," in which the said amateur proposed to fight successively with all his champions, on the condition that he should preserve the strictest incognito; and that it would be as strictly respected.

Agreed. The next evening a brougham stopped at the arena, and the amateur entered, wrapped in an ample cloak of black satin, enveloping him from head to foot. He sat down for a while. One of the strongest athletes put himself in a fighting attitude.

The amateur throws off his cloak at once. A thrill of admiration runs through the spectators. His face and neck are covered with a thick black netting; a tissue of white silk strikingly delineates the prodigious muscles of this torso; he wears black gloves and white pumps; his drawers are of black velvet.

He comes to the athlete. The fight begins amid a dead silence. The masked man tries to lay hold of the athlete. His hands must be of iron, for the athlete is roaring each time they touch his sides.

After three minutes of parrying the unknown man succeeds in grasping the athlete, bluntly bends his back, and throws him on the ground.

The crowd is frantic; a thunder of applause salutes the victory of the modern Samson, who quietly wraps himself in his black cloak and makes his exit by a side door.

Who is he? No one can tell, but Echo will surely penetrate his incognito.

AN IMPORTANT BRANCH OF IRISH TRADE IN DANGER.

At the Lisnaskea Agricultural Dinner, held on the 11th September, the President, Lord Erne, called the attention of the farmers to the important topic of the Irish butter trade. He was sorry that it did not hold the same command of the English markets which it used to do. He attributed this to the fault of the farmers themselves. He reminded them that they have now to compete with the butter from Holland and from France. The Dutch farmers have large dairies, and can make up a tub from one milking, which is then of one color, and is preferred to the Irish, which is too often made up piecemeal. The French are superior in cleanliness. The foreign butters are preferred to the Irish butter, because they are so fresh. All the foreign butter brought to England is sold within ten days of being churned. Foreign butters are scrupulously clean, while Irish butter contains hair and dirt of various kinds, as well as too much salt and brine, particularly that from the South of Ireland, and much too frequently that from the North. Lord Erne enforced the necessity of improvement if the Irish farmers did not wish to see their butter used only for greasing axles.

HEYWOOD'S NEW SUGAR-CURED HAMS AND BREAKFAST BACON.

HEYWOOD'S PORK SAUSAGE.

ELIXER OF LIFE.—Mr Heywood, of the Yorkshire Market, has commenced for the season to make his celebrated Pork Sausage, manufactured from the very best of Island Pork—clean and pure as the snow that fell on Diana's lap—Oh, get out! Everybody buys them, because they are good. Now mind, be sure and make no mistake; it is in the fire-proof Brick Store, next door to the Old Original Coffee Stand.

THE EXQUISITE DRESSES, Flowers, Wreaths and Fancy Goods, suitable for evening wear, to be seen this week in the windows of the London House, Government street, remind one by their beauty of Regent street or Broadway. A great part of these goods were received from Europe by last Express, and are of precisely the same style as now being worn in Paris and London. *

NEW WINTER FASHIONS—Received by ast steamer at VICTORIA HOUSE, direct from Paris, the Latest Novelties in Ladies' Trimmed Bonnets and Hats, Girls' and Infants' Hats and Bonnets, Genoa Velvets, Bismarck and other new Silks, Flowers and Feathers, Kid Gloves, Black and Colored Velvet Ribbons, etc, etc.

An efficient French Milliner has also just arrived from Paris to assist in the Millinery Department.

MARTIN LUTHER once thought he saw the devil in his chamber, and threw an inkstand at his head. Had they bad in those days AYER'S PILLS to exorcise all the devils that come from a disordered stomach, his laughable fright would not have become a matter of history.

If you wish the very best CABINET PHOTOGRAPHS, you must call on BRADLEY & KULOFSON, 429 Montgomery street, San Francisco. *

DEPARTMENT OF THE INTERIOR, Washington, D. C. July 1st, 1867.

SIR: I have your Pill's in my general and hospital practice ever since you made them, and cannot hesitate to say that they are the best cathartics I have used. The result of their use is rapid, quick and decided; consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, LORENZO W. D., Physician to the Marine Hospital.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Your Pill's are the prince of purgatives. They exert a powerful and salutary influence upon every system.

They are mild, yet very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Neck Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO.—AYER: I cannot answer you what complaint I have had of your Pill's but will do so at your earliest convenience. They are excellent.

I place great dependence on that effectual cathartic in my daily contest with disease, and believe, as I do, that your Pill's afford us the best we have.

I, of course value them highly.

PITTSBURG, Pa., May 1, 1865.

DR. J. C. AYER: Sir—I have had your Pill's repeatedly cured me of a number of diseases, and I am well satisfied with them. It seems to arise from a dose or two of your Pill's. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect, ED. W. PREBLE,
Clark of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. J. G. Green, of Cleveland.

Your Pill's have had a long trial in my practice, and I hold them in esteem as one of the best remedies I have ever found. Their alternative effect upon the liver makes them an excellent remedy, when given in large doses for bilious dysentery and diarrhea. Their supporting makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pill's with extra ordinary success, finding and thinking them called to visit in distress. To remove the impurities of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WARAWAY, Wyoming Co., Oct. 24, 1865.

DEAR SIR: I am using your Cathartics in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression,

Rheumatism, Gout, Neuralgia, Dropsey,

Palsy, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Today I have your Pill's sent for the cure of costiveness.

If others of your friends have found them as efficacious as I have, they should join me in proclaiming it, for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I have costiveness to originate in the liver, but your Pill's affect that organ and cure the disease.

From Mrs. E. Stuart, and Midwife, Boston.

I find one or two large doses of your Pill's taken at the proper time, and finding them well suited to my case to a cold settled in my limbs and brought on by continuing general pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pill's. The effect was singular and by degrees I was enabled to control it. By degrees I was enabled to control it.

SEASIDE CHAMBER, Baton Rouge, La., 5 Dec., 1865.

DR. AYER: I have been entirely cured by your Pill's of Rheumatic Gout—a painful disease that has afflicted me for years.

VINCENT SLIDELL.

Most of the Pill's in market contain Mercury, which although a valuable remedy in skilful hands, is dangerous in a public price, from the dreadful consequences that frequently follow its incautious use. There is no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for \$1.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass.

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these pills purifying Pills, which correct the system by their strong, cleansing, diuretic action. They are also a very balanced, disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback.

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is well known in every part of the world, and the cure effected by its use are no wonder to us to astonish everyone. I pre-eminently a remedy for bilious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the best relief often comes from the change of diet, blood, tonics, and especially Holloway's invalidating system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased.

Determination of Blood to the Head.

This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to, frequently lead to serious trouble.

And particular attention is paid to

CLEANLINESS AND GOOD ORDER.

APARTMENTS will be let by the DAY, WEEK or MONTH, at a Great Reduction from Former Rates, and Travellers are requested to inspect the Hotel before seeking

ing accommodation elsewhere.
